ICE MERCHANTISER

Coming Soon!

STANDARD FEATURES

- This outdoor ice merchandiser is an excellent choice for convenience stores, beer distributors, supermarkets, or any business that sells bagged ice! With plenty of smart design features and an iconic, easily recognizable design, this unit lets customers know that you've got plenty of the ice they need available for purchase!
- It accommodates up to different bags of ice to keep your business well-stocked for any need.
- This merchandiser uses refrigeration system with R290 refrigerant.
- The steel cabinet uses water-tight and a polyurethane coating for better resistance to corrosion, adhesion, and humidity. It also provides it with a smooth, mid-range gloss finish. And since it comes with "ICE" signage you can be sure that customers will take notice!
- The high density foaming on the ceiling, floor and wall provide maximum temperature retention.
- Electronic control system, you can easily monitor the unit and make changes as necessary.
- Temperature Range 18°F to 25°F (Max Ambient Temperature 110°F)
- Warranty: Two year parts & labor warranty, and additional three years on compressor.
