MODEL NUMBER BREAK DOWN:	SERIAL NUMBER BREAKDOWN:
The model number breakdown is really easy and simple: For example: EGM21X E – Entrée, G – Glass M – MERCHANDISER 21 –Width of Merchandiser No letter – Refrigerator, if this was an “F” it would be a FREEZER. X – Factory Identifier The EGMSDR54X is the only odd model because it has two SLIDING doors. All the other models are swing doors. The stand hinge side on all single door is on the right side as you would be looking at the merchandiser. SDR = Sliding Door Refrigerator	There are 16 digits in the serial number, NO LETTERS. Example: 6016171117030101 The third set of four (4) number are the date when manufactured: Year manufactured: 17 = 2017 03=March All models use R290 Freon
